

Social Media Tool Kit

California Clean Air Day's goal is to spread the message throughout California about air pollution and how it directly impacts all Californians' health. Everyone is directly affected by air pollution. Only with the whole community's help can we get the message out about how important clean air is to all of our neighborhoods.

Social media is a key tool to reach all Californians with a call to action to clear the air. We invite every Californian to partner with California Clean Air Day on October 3, 2018 to take real steps in reducing air pollution. California Clean Air Day will be utilizing Facebook, Instagram, and Twitter as our main sources for social media. (For those in a professional setting, we have also provided key content to share on LinkedIn) We recognize the wide range of options that exist, so please use whichever social platform you feel most comfortable using.

Here are suggested content, posts, and images to share on social media pages. Make sure to tag us and use our key hashtags, and we'll make sure to promote your posts:

September 3rd

- What are you doing on October 3rd? In just one month, be a part of the largest clean air day of action in California history. Pledge to be a part of Clean Air Day at www.cleanairday.org

September 4th- 30th

- Clean Air Day is almost here in California. Everyone in the state has a role to help clean the air, and it's really easy to do. Just take the pledge and breathe easy: www.cleanairday.org
- It's almost time to celebrate across the Golden State; take a deep breath and join the clean air party that is Clean Air Day on October 3rd: www.cleanairday.org
- As Clean Air Day approaches, know that even small actions can have a huge impact on your community and your personal health. Take the pledge to clear the air today: www.cleanairday.org
- Do you know the last time your indoor air filters in your home or your car cabin air filters were changed? Changing filters regularly can reduce the risk of asthma and help you breathe easy. Since you're going to check them now anyway, go to cleanairday.org and pledge to replace them to help clear the air on (or before!) October 3rd.

October 1st

- Join leaders and neighbors from across the state on #CleanAirDay. Check out cleanairday.org to see how many people, businesses, and organizations are taking action to clean the air in just three days!

October 2nd

- What can you do to clear the air in your community and across California? There is still time to take the pledge for #CleanAirDayCA at www.cleanairday.org

October 3rd

- What will you do today to clear the air? Share by taking the pledge for #CleanAirDayCA at www.cleanairday.org
- Show the California air you care today!!! #CleanAirDayCA www.cleanairday.org
- Simple steps make a big impact to reduce air pollution in your neighborhood. I completed the Clean Air Day Pledge! #CleanAirCA www.cleanairday.org

Instagram (and Twitter & Facebook, too):

Use images of clear skies, outdoor activities, and other representations of people breathing in clean air to highlight the value of clean air. Use phrases like "Clean air matters" and reference why it's valuable to you. Use the hashtag #CleanAirDayCA and tag @CleanAirDay to direct people to how they can participate.

Other options include taking selfies of you doing things that help clean the air, including walking, taking transit, carpooling, changing air filters, planting, etc. Highlight that everyone has

a role in cleaning the air and use the hashtag #CleanAirDayCA and tag @CleanAirDay to direct people to how they can participate.
